Group 3: Board room (floor F [first floor])

Facilitator: Đurđica Dragojević and (following 11:35 switch) Salvador Rus Rufino

Group 4: Deák 1+2 room (floor C)

Facilitator: Salvador Rus Rufino and (following 11:35 switch) Đurđica Dragojević

A. Quality assurance and research

- At your agency, how is research in bachelor/master programmes considered in your quality assurance procedures?
- What are the challenges in the quality assurance of research in education?
- How does your agency evaluate programmes that are fully research-oriented (PhD programmes or other research-based degrees)?
- If it does not, is there any discussion about that at the agency/national level?
- What are the possibilities in the quality assurance of research? How could institutions develop their research through quality assurance?

B. Fraud in higher education

- From your agency's point of view, what do you see as the biggest challenge as regards fraud in higher education?
- Are there some actions at the national level in your country in tackling fraud?
- How could QA agencies better address fraud in their procedures?
- What role can regional networks such as ENQA (ESU, EUA, EURASHE, ENIC-NARIC Centres etc.) play in tackling fraud?
