Questions

Vision

- Should the vision of 2016-2020 be further elaborated for the new strategic plan? If yes, what should be added?
- The proposed Vision stresses the significance of quality in higher education and reflects the United Nations Sustainable Development Goals. Do you agree that this is the context that ENQA should bear in mind in its work or what would you change?

Mission

- Do you feel the proposed Mission reflects the position and profile of ENQA for the coming years?
- Would you add or leave out anything?

Values

- Are the proposed changes to the Values relevant in the context of ENQA's position in the EHEA and for guiding its work in the coming years?
- Would you add or leave out anything?

Goals

- Does the proposed organisation of the Strategic Goals adequately reflect the mission statement?
- Are there certain Strategic Goals that are missing?
- What kind of considerations need to be in the explanatory text of the Strategic Goals?
